Equal Justice- All people have a right to equal treatment under the law. We support the enforcement of the original Bill of Rights as written and intended by the Founders.

How will we win again and restore freedom? How will you win your neighbor over to Constitutionally Conservative Values? It is simple but a lot of work. We will win again when we connect with our neighbors in our precincts. The connection needs to be filled with a few ingredients. Have you developed a strategy for building rapport with your neighbor? I would strongly encourage you to embrace the following rapport building strategy.

PRECINCT RAPPORT BUILDING STRATEGY

CONNECTING WITH OUR NEIGHBORS ONE RELATIONSHIP AT A TIME

To collect all the data that we need, please use the Kingmaker App. The Spokane GOP will begin our marketing campaign soon and knowing the issues that are important to your precincts is incredibly important. Contact MJ BOLT, vchair@spokanegop.com. for more information. How we do these walks is equally as important. Here are five things to think about and implement. When the Republican Party stands united and begins to proclaim ...

Help me move the Spokane County Republican Party forward? Our mission, vision, and strategy are simple. **MISSION:** Get Republicans Elected. **VISION:** Fill Every Seat in Spokane County with a REPUBLICAN. **STRATEGY:** Empower PCOs and their neighbors to be grassroots leaders in their communities to win over people's hearts to conservative values. One last thing: We need your monthly donations for an effective and influential party to get things done. Your monthly contributions will cover the SCRCC overhead and allow us to ensure freedom in our county. **God Bless and God Bless, the United States of America**

YOU MAY BE A RADICAL...By Juli Skinner

Do you protect your child's innocence and shield their eyes from the depravity of same-sex individuals performing sex acts in public parades? Do you oppose all forms of racism, pray for ethnic harmony and abhor the repeat of history only now under the title, "white privilege"? Do you appreciate police officers' dangerous daily duties and look to them to serve and protect? Do you want [legal] immigrants to contribute to this country and our citizens to have access to the needed resources before an illegal alien adult? Do you desire only the strongest, smartest military personnel in times of war? Do you want more take-home pay; not to be taxed into oblivion? Do you require that dangerous, violent criminals stay off the streets? Do you believe that our elections are vulnerable? Do you question the media? "Yes" to any of the above? Then you may be a radical.

When exactly did it become radical?

The real radicals label YOU while they infect our value system with a Socialist hybrid form of government. Would it surprise you to know that the destruction of our government has been part of academia instruction for years? What would that look like? In a Political Science textbook, as quoted in an Op-Ed by Keith Albern, Californian Judge (retired): How to destroy a Republic/Democracy:

1. *Divide the nation philosophically*
2. *Foment racial strife*
3. *Cause distrust of police authority*
4. *Swarm nations' borders indiscriminately and unconstitutionally*
5. *Engender military strength to weaken it*
6. *Overburden citizens with more unfair taxation*
7. *Encourage civil rioting and discourage accountability for all crime*
8. *Control all balloting*
9. *Control all media*

That was 1954.

Our Republic has almost completed its transition into Socialism through normalization of social marginalization, according to those 9 points. Manifestos within Socialist, Marxist, Communist camps exist in many variations, preceding and following the 1954 textbook summary. But this one is truly alarming because it aligns closely with what we are currently experiencing. If those 9 points are representative of what makes us a Democratic Republic, then our leaders should be up in arms!

BUT THEY ARE NOT!

WAKE UP! Be a radical!

*Don't let this state tell you that you have no right to know when your minor child seeks to change his/her gender. Sidenote: And pedophilia will never be accepted. *Tell your racist friends that we are ALL people of God. *Get to know your local law enforcement. *Demand legal immigrants be self-sufficient. *Protest our military leaders when they emphasize able-wokeism over recruitment of able-bodies. *Don't let this state socialize YOUR paycheck. *DO NOT SUCCUMB TO VIOLENCE. *VOTE with pragmatism NOT your heart. VOTE big; VOTE small. *Question elections. *Call out news anchors who lie for a living. Push back and remember: [WE] The SANE outnumber [THEY] the INSANE. But you have to stand up and be counted for this country and fight for your children's future.

By the way, have you noticed One major exclusion from all Socialist doctrines? Yes, that's right:

GOD!

I declare June to be God awareness month. He is taking back His rainbow. But you can borrow it!

The Constitutional Corner

By Lori Burns

Most of us who read this newsletter are actively engaged in the political arena and are very aware of the degradation of our culture and the steady erosion of our rights. It is a sad and sobering thing to behold. We understand the unique value of our Constitution and its earth-shattering affect on world politics. Sadly, due to the deliberate dumbing down of our children who attend government schools, U.S. children don't. It has been the purposeful goal of the communists to tear down our country from within the walls of our schools and they are succeeding.

For too long, we have sat on the sidelines, grumbling loudly but failing miserably to address the grave situation we face nor actively pursuing necessary change. I recently finished a book that I recommend to all of you. Our nation's children

are all at risk; we should be terrified of the vile rhetoric they are force-fed every day in government brainwashing institutions (formerly known as public school). The book is: "Battle for the American Mind: Uprooting a Century of Miseducation" by Pete Hegseth. It offers not only a candid look at where we are, but offers solutions we must implement.

If I had to do it all over again, I would have pulled my kids out of government schools. I knew it was bad, but I thought we could do enough at home to counteract the brainwashing. Sadly, we only have about a 60% success rate. Please drop the assumption the public school is good enough. It isn't. I wouldn't trust any commie to teach my children history or civics and yet that is what happens, if it happens at all. (I'm not indicting good

teachers; there are many. But the system is rotten to the core.) At minimum we should: 1) Change school funding to travel with the student and force government schools to compete. 2) Create clear alternatives where children of faith and freedom can be educated with the truth and be taught to think, not regurgitate. 3) The Federalist Papers and our founding documents should be required reading in high school. They should be studied and debated and understood.

The only hope for our nation's future is to wrest back the control of our children's lives. It is our job to teach them principles of truth and give them tools to destroy the lies that surround us. It is high time that our commitment to truth is equal to the level of hate our enemies manifest in their destruction of this once-great nation.

Braver Angels needs you

In May 2021, over 1500 Americans attended a virtual debate on election integrity. Debaters were passionate yet civil. The moderator simply moderated. There was minimal impugning of motives and no personal attacks. The event proved it's possible to discuss a question so contentious that even the brave souls of Braver Angels agonized over having the debate at all.

Braver Angels was formed following the 2016 election by a group of 10 Trump supporters and 11 Clinton supporters in Ohio. The organization is committed to evenly matched "red/blue" leadership teams at both the national and regional level. The goal of a Braver Angels debate is for speakers to be their authentic selves, listen well and demonstrate disagreeing respectfully. On March 4 the question was:

Resolved: Voter fraud is a major problem in US elections. (Virtual debate) <https://www.youtube.com/watch?v=Ba6tD8QE2Y>

The resolution was carefully framed to make room for voices believing the 2020 election was stolen, those believing the election was free and fair, and those who suspiciously see voter fraud claims as a smoke screen for voter suppression. According to John Wood, Jr., 2014 Republican candidate for Congress in California and National Ambassador for Braver Angels, the alternative to this is the continuing siloing of the American people into the echo-chambers that incubate ignorance, institutional decline and eventually violence." In an earlier podcast discussing whether to even have the debate, Wood pointed out "views that we don't agree with still have a life," and the only way to interrupt a narrative is to bring it out of its echo chamber to be examined.

PURSUIT OF BEAUTY By Chase Robert Abbott

This is something that I've been thinking about for a while and that's the beauty of liberty and the individual pursuit of happiness. Over the last few years, I feel confident in saying that our liberty and happiness were discouraged by COVID-19 and that is the direct opposite of beauty.

Beauty is believing in something passionately and trying to express that to others. And, the true beauty is believing in something that is unpopular and not having to fear expressing that to others. Our society is slowly slipping into a totalitarian mindset that is the opposite of beauty. Call it "wokeism", "critical race theory", "cultural- Marxism"; whatever you call it, the truth is people are increasingly unable to speak their minds because they're afraid to say something incorrect. And, as a society, this is scary and the antithesis of beauty.

In America, there are a lot of ideas that we should be allowed to express; one of the most important being our belief in liberty. Many people don't feel free to say that. Throughout 2020-2022 COVID-19 lockdowns and vaccine rollout, many people publicly opposed and they were demonized, canceled on social media, denied services and took a barrage of verbal abuse; many were alienated from their families, forced from their jobs and, most importantly, lost their individual liberty to govern their own bodies. This should not be ignored and is the antithesis of beauty.

In authoritarian societies, it is never just State authoritarianism. The culture and society around it hold up the State. In North Korea, individual citizens are encouraged to rat out each other; true in the Soviet Union, true in Nazi Germany, and true in 2020 around the United States, even here in Spokane. Nationally there were campaigns to rat out other citizens for not social distancing, not wearing a mask or anyone that wasn't following the rules. Now we have a situation on social media, college campuses, publications, and in polite society where people are afraid to speak their mind. If you're denying this exists, then you're not living in reality because this is just the case and this is not good. This is the opposite of beautiful.

Beauty and liberty are being able to speak your mind. This right now is dystopian, ugly and gross. It is no coincidence that as

(PURSUIT OF BEAUTY Continued from pg. 4)

This is happening and beauty is collapsing around us where people are afraid to speak their minds, that we're seeing a rise of homelessness and government sponsored tent cities. This is not beauty.

If we want to promote an ideology, it just can't be the beauty of the idea; it's a prerequisite but it's not enough. We need to promote serious proposals that offer solutions that improve people's lives. For true beauty to flourish during these ugly times, we need to promote truth. The left of center voters, believe it or not, have been left abandoned by the Democratic Party.

The State of Washington is up for grabs during the next gubernatorial election. The WAGOP should back a right of center Liberty candidate who can call out the COVID Regime's Emergency Power Abuses. I know many will disagree with me and say that a right of center candidate is not enough but if you want to flip the Governor's mansion, then you need to placate the left of center and convince them that liberty and their pursuit of happiness shall not be infringed upon by the State, ever again. And that would be beautiful.

Spokane GOP Elections Committee Chair, Ruth Ryan, nominated and presented with Spokane GOP Woman of the Year award. Congrats!
